Mirzohid Abdurazzoqov

Product Manager

Tashkent, Uzbekistan | mirzohid.pm@gmail.com | linkedin.com/in/mirzohid-abdurazzoqov

SUMMARY

Product Manager with 3+ years across fintech, consumer mobile, and e-commerce. Currently PM at DOMO, Uzbekistan's leading home & utility management app with integrated payments (2.5M+ users): drive products from discovery and PRD to production, work metrics-first, and contribute to AI-agent automation of the product lifecycle (Claude + MCP).

EXPERIENCE

Product Manager, DOMO *Mar 2026 - Present*

Uzbekistan's leading home & utility management app (2.5M+ users) with integrated payments.

- Shipped a gamified onboarding flow (new-user home setup) that drives 70% of new users to attach a utility account and 60% of those to add card details — the top of DOMO's activation funnel.
- Shipped 3 more consumer product lines to production in 5 months on a platform managing 2.5M+ homes: EV electricity accounts (add, pay, monitor, AutoPay), multi-account support for electricity & gas, and a unified utility card redesign with daily/monthly consumption analytics.
- Launched DOMO CORP — the B2B product line for legal entities with multi-utility management and an authentication overhaul — opening DOMO's corporate revenue stream.
- Lead Yagona QR, in-store QR payments with reserve-funded cashback, from PRD to delivery.
- Contribute to DOMO's AI-agent operations (Claude + MCP gateway over Jira, Confluence, backoffice): automated story creation, epic/PRD writing, and PRD-to-delivery reconciliation.
- Program-managing ISO 27001 certification to unblock enterprise and government contracts.

IT Product Manager (Co-Founder), Tantana Entertainment *Jul 2025 - Feb 2026*

Restaurant-entertainment mobile app — early-stage startup that ultimately failed (closed Feb 2026).

- Raised $80,000 in angel investment with the founding team at the product's idea stage.
- Translated business requirements into technical specifications for revenue-impacting mobile features; managed a cross-functional team (engineering, design, legal, marketing) across two-week release cycles.
- Established dev/prod environment separation, cutting production risk and stabilizing QA.
- Helped conduct 200+ short and 40+ in-depth CustDev interviews with restaurants and end users, validating product-market hypotheses and refining the core value proposition.
- Learned and worked with the JTBD framework, contributing to structuring user needs into 4 priority job clusters that drove roadmap planning.

PMO Operations, UIC Group *Jun 2024 - Jul 2025*

Software development company delivering cross-border digital projects (fintech, ed-tech, CRM).

- Standardized PMO documentation in Confluence, boosting delivery visibility across 10+ active projects.
- Mentored 2 project managers now leading key client accounts; conducted 30+ PM candidate interviews and refined hiring and onboarding criteria with HR.
- Built weekly KPI reporting templates, enabling performance tracking and bonus eligibility mapping.
- Supported pre-sales for 5 major projects, assisting scoping and client coordination.

Technical Project Manager, UIC Group *Apr 2024 - Jun 2024*

- Recovered a failing e-commerce platform by cutting a 13-week scope to 8 weeks and delivering on time.
- Boosted team throughput 25% and cross-functional task completion 35% via a dedicated project room and async daily updates.
- Built the complete client documentation set (Confluence, Google Drive), cutting feedback cycles 50%.
- Owned risk mitigation and stakeholder coordination, resolving 5+ high-priority blockers weekly.

Technical Project Manager, Sarmo Labs *Dec 2023 - Apr 2024*

Startup studio; Speaklish - AI English-speaking practice app.

- Helped scale the Speaklish product to 30K+ users by aligning the dev roadmap with user feedback loops and analytics.
- Coordinated cross-team delivery across developers and sales, introducing Figma prototyping and Agile standups.
- Represented the startup at Web Summit Qatar 2024, securing international partnerships and pitch feedback.

Technical Project Manager, UIC Group *Feb 2023 - Dec 2023*

- Managed delivery of 4+ cross-border digital projects (ed-tech, CRM) at a 90% on-time rate.
- Stood up Agile delivery across 4 new teams — designed Jira workflows, estimation practice, and retrospective cadence.

Project & Event Manager, Digital Generation Uzbekistan *Dec 2019 - Aug 2021*

- Organized national IT camps reaching 4,000+ students and GDG community events, managing logistics, content, and sponsors; presented 2 national projects to the President of Uzbekistan.

SKILLS

Product: discovery & CustDev, JTBD, PRD writing, roadmap & prioritization, release management, funnel & retention metrics, North Star / KPI definition

AI & automation: LLM agents (Claude), MCP integrations, prompt engineering, agentic SDLC design, AI workflow automation

Analytics & tools: Jira, Confluence, Figma, AppMetrica, Firebase, Google Sheets, GitLab

Languages: Uzbek (native), English, Russian

EDUCATION

New Uzbekistan University — B.Sc. Computer Science (graduated) *2022 - 2026*

4-year scholarship recipient. Focus: Algorithms & Data Structures, Databases, Networking, Machine Learning
